REPAIR 3PT WILL NOT LOWER

ARRIVED ON SITE 1/27/16 - ALSO FOUND THE RIGHT AND LEFT
FRONT WHEEL SEALS LEAKING. PICKED UP TRACTOR AND BROUGHT TO
THE SHOP. I ALSO ORDERED PARTS MICHAEL 1/27/16

CAUSE:

service call out to benson arrived and removed operator
seat removed three point drafting valve new valve supplied
was wrong. cust also had a concern with the operation of
the three point loading up when in full up right position.
he also stated that when tractor is in four wheel drive
that at times when he turn sharply there is a clicking noise
at the left front axle.

i inspected front axle and found that the left and right
side wheel hubs are leaking. i checked axle fluid levels
and found that the front axle was very low on oil did not
mark on dip stick. called shop jason will have machine
transported to shop for all repairs. cust also wants a slow
moving triangle installed on tractor. hours on tractor are (
